Reconciliation made simple: every payment, perfectly matched.

Turn reconciliation from a manual chore into a clear, automated process. Our payment orchestration platform automatically matches transaction data with provider settlement records, helping clients identify discrepancies faster, reduce spreadsheet work, and keep financial operations accurate across payment providers.

01 WHO IT BENEFITS

Finance & Accounting

Reduction of manual efforts to reconcile transactions, increase of quality and transparency.

Payment Operations

Visibility and Transparency across many providers allows faster resolution of payment exceptions.

02 HOW IT WORKS

Collect

Bring payment data from every provider into one platform.

Standardise

Turn different provider formats into one data structure

Match

Connect transactions, fees, settlements and payouts automatically.

Resolve

Surface discrepancies clearly, so teams can act quickly.

03 WHAT YOU SEE

Transaction ID	Status	Merchant transaction ID	Amount	Currency	Connector brand
RD-ds-287944r9	Auto match	M-84729163	**1,012.00**	EUR	Autopay
RD-ds-287951k3	Match	M-84729508	**4,234.12**	EUR	Paypal
RD-ds-287968m7	Unknown transaction	M-84730142	**279.95**	EUR	Paypal
RD-ds-287972p4	Manual match	M-84730679	**86.50**	EUR	adyen
RD-ds-287985t2	No match	M-84731205	**1,749.80**	EUR	adyen
