White labelling: your brand, your business.

Launch your own payment offering without building the infrastructure. Dinape handles the orchestration; you bring it to market under your own brand.

Get to market faster, create new revenue opportunities and own the customer experience. Embed payments into your core offering to deliver more value and strengthen customer retention.

01 WHO IT BENEFITS

PSPs, Fintechs & Payment Platforms

Launch your own payment service faster. Add a revenue stream and keep the customer relationship under your brand.

Multi-Entity Organisations

Unite clients, divisions and merchants on one platform. Avoid separate portal costs and make your offering more essential to customers.

02 HOW IT WORKS

Prepare

Provide your logo, favicon, primary colour and relevant company and email details.

→

Configure

Add the main visual elements in Dinape and set up advanced options with support from our team.

→

Apply

Dinape displays the most specific branding available for the user's current entity and business context.

→

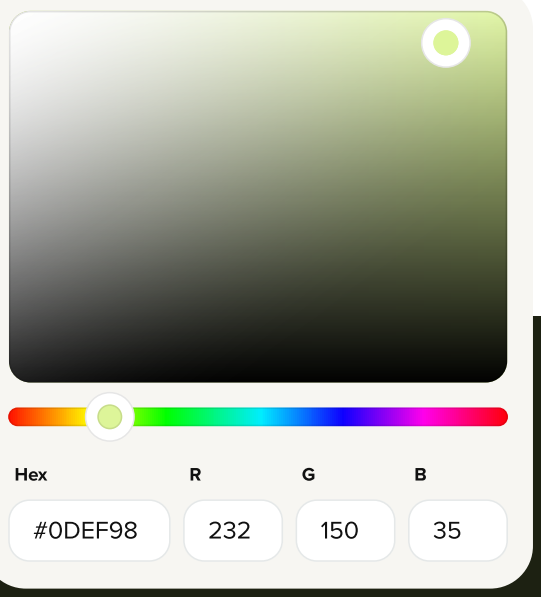

Deliver

Present a consistent brand across the login screen, platform interface, portal URL and automated emails.

03 WHAT YOU SEE

Branding

Logo URL	https://www.link.com/wp-example/my_logo.png
Favicon URL	https://www.link.com/wp-example/my_favicon.png
Primary color	#0DEF98

Payment Orchestration - Built in Europe. Ready for the World.

Dinape is a european-based Payment Orchestration Platform that helps clients simplify complex payment operations and take control of their entire payment ecosystem.
